**Gerty starts
training!**

We're delighted to let you know that Gerty has completed her socialising journey!

With the skills and confidence she's built along the way, she's now ready to take the next step and begin her formal training at Dogs for Good HQ.

This is an exciting milestone, made possible by the fantastic foundation given to her by her puppy socialiser, Christine. Her care and dedication have helped Gerty grow into a confident and well-prepared young dog, ready for what comes next.

Gerty will move in with one of our volunteer boarders, who will provide her with a loving home during this stage, while she also starts working closely with her expert Trainer, Sara, who has told us all about Gerty's first week in training:

Gerty has had the most fantastic first week in early training! She has settled in with her temporary boarders brilliantly right from the start.

She sleeps well at night in her brand new huge comfy bed, and she has had some lovely long walks over at the country park where they have practised her loose lead walking and recall.

She has made instant, firm friends with the two young children in the home, and they can often be found either playing games together or cuddling up at the end of the day. The children also thoroughly enjoy joining Gerty for walks and free running, and they are the first with their hands out, with lots of treats ready when Gerty comes running back to them!

I am also really pleased to share that Gerty is absolutely thriving in her office space for when she spends time at the centre. From the moment she stepped in, she adored all the fuss and attention from all the staff in there, who are all madly in love with her already.

She has another huge comfy princess bed where she naps, and two toy boxes filled to the brim with toys that she plays with. It's so lovely for her to have her own space just for her when she visits the centre, where she can get plenty of rest in between training, free running and playing.

Gerty and I have mostly spent the week building a bond and developing our relationship. We have played lots of fun games, gone for some lovely walks together, and done lots of enrichment activities together too. She loves snuffle mats and snuffle balls the most I think!

I am so excited to see how she progresses with her training.”

We hope you’ve enjoyed following Gerty’s wonderful socialising journey, helping to prepare her for a very bright future changing lives.

This would not be possible without generous supporters like you. On behalf of everyone at Dogs for Good, thank you for being one of our valued Puppy Partners.
